

UNIKOV®

30+ YEARS ON THE MARKET

CZECH GARDEN FURNITURE MANUFACTURER

PRODUCT CATALOGUE 2023

At UNIKOV Steel, we want you to enjoy your garden as much as the painter Claude Monet did.

“My garden is my most beautiful masterpiece.”

Claude Monet
French impressionist painter
1840 - 1926

PAST AND PRESENT

UNIKOV spol. s r.o. was founded in 1992 with a simple idea: to build a Czech engineering company manufacturing affordable and, above all, high-quality metal furniture and products for the Czech, Slovak and foreign markets.

In 2012, we changed into UNIKOV Steel spol. s r.o. and thanks to the hard work of our designers and craftspeople who have vast experience in their fields, we transformed and expanded our horizons from just chairs and garden furniture to metal interior design furnishings for global sales giant IKEA and other B2B partners. We started making quality metal furniture with modern design for good prices. Our customers appreciate that our metal furniture is maintenance-free, has guaranteed durability and long-lasting vibrant colours.

In 2020, UNIKOV Steel started to modernize our entire production with partial automation, opening the door to the world of Industry 4.0. To our clients and partners, we offer custom product design and a suite of modern machines including material shaping, tube extrusion, metal sheet processing, lathing, welding and powder coating.

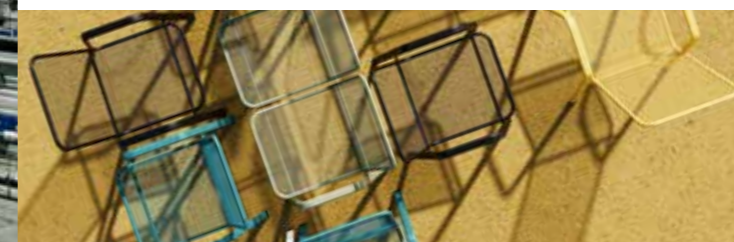

We are in step with the changing times and the idea of sustainability. We identify with efforts for manufacturing sustainable products, choosing recycled or recyclable materials for some of our components. At UNIKOV Steel, we aim to branch out into the automotive industry, with pressed and welded components and tyre racks. In 2023, we are celebrating 30 years on the market, and we expect to expand into wider markets across to the whole EU. Besides the production of garden and interior furniture, which is the highest quality on the Czech market, throughout our history we have established significant business partnerships such as with IKEA, TAP France, VAG, MMcité, and others.

Peter Pataky
CEO UNIKOV

DEVELOPMENT DESIGN QUALITY

We follow global trends in more than just colours.

At UNIKOV Steel, we strive to create products for inspiring and cultivated living areas. Our new products embody spirit and distinction, and are furnishings for a relaxing home.

Jiří Jež / designer

He comes from the Silesian town of Třinec, and honours the motto, "Complicated things can have simple solutions."

He graduated from the University of Decorative Arts in Industrial design under sculptor Ivan Linhart. He spent a significant amount of time in the studio of architecture and design under architect Prof. Jiří Pelcl, PhD honoris causa. At the University of Art and Design in Vienna he completed an internship under the guidance of architect Prof. Borek Šípek in the studio of industrial design.

The diversity of his work reflects the gradual expansion of his creative range from industrial design, through interior design, to corporate visual identity. He designed a tourist resort in Ghana, on the coast of the Gulf of Guinea. He has designed several broadcast studios for Česká televize. His chair, "Roštěnka" can be seen in the permanent collection of the Museum of Decorative Arts in Prague. A prestigious job for Česká zbrojovka was a unique opportunity for him.

He passed his rich professional experience on at the Private School of Art and Management in Prague and at the vocational Secondary Industrial School in Světlá nad Sázavou. At the moment, he works in the studio of product design at the Faculty of Architecture of the Czech Technical University in Prague.

Thanks to his passion for metal chairs, he returned to work with UNIKOV Steel based in Bzenec, where he had already worked once previously. He is currently designing a new collection of metal garden furniture and furniture for balconies.
